ABOUT THE BOOK

A fearful mom finds faith battling for her daughter's life against odds in a raw but inspirational true journey of trial and triumph.

Jenny's infant daughter, Faith, is diagnosed with a rare and serious heart condition leaving odds for survival grim. Jenny, a new Christian, digs heels in on a God-quest in search of the child-like faith God wants her to have. The duo battles their way through six radical open-heart surgeries over the course of eighteen years.

After Jenny's husband dies unexpectedly, fear takes hold. Faith requires two more major heart surgeries. The battle between life and death continues while they stand in perseverance and cling to hope.

Tribulations grow bigger, but God shines brighter as He intricately weaves victory through the battlefield. God reveals His power in unimaginable ways.

Very emotional... faith is the center of this book, the heart of it if you will. Ms. Muscatell's faith while tested never faltered and it carried her through each trial. This book has prompted discussions in my house about faith and the nature of God.
